New SAPPA video

SAPPA made a video to help explain what we do and who we are.

Check it out at <https://www.sappa.za.org/who-is-sappa/>

Oesbeskerming

Dit is belangrik om peste en plaë wat nie in Suid-Afrika teenwoordig is nie, uit ons land uit te hou. Daar is 'n groot risiko wanneer plantmateriaal en tweedehandse toerusting uit ander pekanneut produserende lande ingebring word.

In die geval van tweedehandse toerusting, moet alle pekan verwante materiaal vooraf vewyder en vernietig wor, verkieslik in die land van oorsprong!!

Die inbring van plantmateriaal is uiters gevaarlik en moet onder geen omstandighede gedoen word nie. Die risiko vir die bedryf as geheel, weeg baie swaarder as die moontlike voordele van 'n kultivar wat nie tans in Suid-Afrika beskikbaar is nie.

SAPPA creates opportunities

Cherry and Kunga are grade 10 learners at Marlow Agricultural High School. SAPPA's support and involvement has created ample opportunities for them to become great young men.

When we asked for feedback, the school was excited to share that they are hardworking boys who does well academically. Both are also enthusiastic sportsmen and were involved in the under 16 A rugby team this year. It was emphasised that they are popular, well-mannered boys with clean disciplinary records.

The school ended of with the following: "These two boys would have been nowhere if SAPPA did not support them. From our side we would like to thank Philip Antrobus and SAPPA for the great involvement of these two boys. You are making a difference!"

SAPPA would like to congratulate Cherry and Kunga on your exceptional performance, it is an honour to be a part of your journey and we are truly proud.
