Argentina: Strengthening Southern Hemisphere's Pecans

Argentina has approximately 10,000 hectares of pecan orchards, expanding by 700 to 900 hectares annually. In 2023, these orchards produced 2,500 to 3,000 tons of pecans, with ambitions to reach 10,000 tons within five years. The orchards, spread across diverse ecosystems, benefit from conditions similar to Georgia, USA, and the western United States or northern Mexico. These regions mainly feature humid areas with annual rainfall between 1,000 and 1,500 millimetres.

Cluster del Pecan from Argentina recently visited South Africa...

Crop Estimate - August

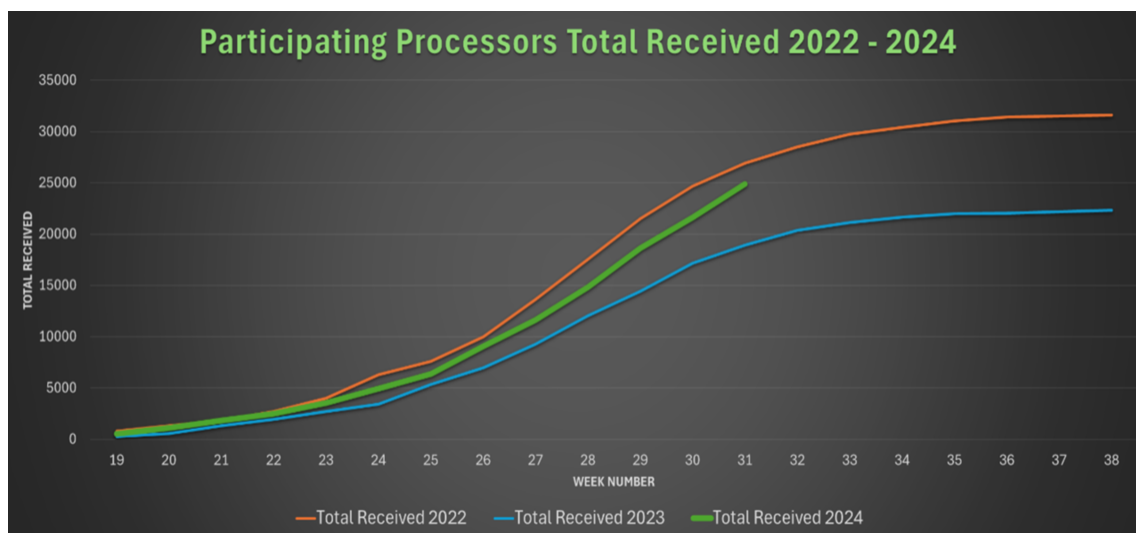

The latest estimate has declined, with the exportable nuts expected to be between 25,000 and 26,300 tons.

The total harvest is estimated to be between 27,800 and 29,200 tons.

2024 Seisoen

Met die laaste twee oesskattings wat afgekom het, is hierdie 'n lekker grafiek om vanjaar se innames te vergelyk met die vorige twee jare.

Totale ontvangste teen die einde van verlede week (week 31) was ongeveer 24,900 ton; in 2023 was dit 19,000 ton en in 2022 26,900 ton- in dieselfde week.

New SA Pecan Magazine

We are excited to announce that the new SA Pecan Magazine is available on our website at: <https://www.sappa.za.org/sa-pecan/>
